

This is about you.

If you are reading this, then you mean the world to us.

You are one of the pioneers shaping the future and making our vision a reality.

This is an open, fair, and egalitarian place for founders, donors, and users.

All with the help of Cardano.

Not just as a cryptocurrency, but as a philosophy.

Whenever you see that improvement is needed around you, open this little notebook and add your thoughts.

Share these thoughts with your community, and perhaps build a business to spark the implementation of this improvement.

Thank you for being part of this movement.

Thank you for being the European Cardano Community.
